

NPR 102 - 2 MOTOR ELECTRONIC ICU AND SERVICE BED

 NUPROM

Specifications

Side Rails: Aluminium side rails equipped for caring patients who have risk of falling out of beds. It is placed both side of the beds and can fold down-up. Folding feature provides spacious clearance under beds. Trigger mechanism performs as button to fold down the rails. Open view type of side rails developed for those who have demantia and panic attack issues so that they do not feel imprisoned and unsafe . Patients can be still in visual communication, while the side rails adjusted to even the highest position.

Head and Foot Panels: Made of polypropylene (PP) medical grade plastic for hygen and cleaning purpose. Washable, autoclavable and resistance to cleaning chemicals.

They are designed as detachable for emergency intervenes as well as making up the bed. Height of the panels is 33,5 cm from mattress platform. The boards easily fit on sockets placed at four corner of the bed

Options: NPR 102 category offers optional package standards as follow:

Mattress Platform: 4 sections, 3 adjustable platform consist adjusments of backrest 70° by motor, kneerest 35° by motor and footrest 45° by ratchet mechanism. The platform has 85cm width and 190cm length for comfortable recovery.

Mattress Platform covers (deck), It is presented in wide range for your needs. Please mention your choice while ordering the bed. All covers

Specifications

Back rest and knee rest adjustment controlled by electrical hand remote, foot rest adjusted by manual ratchet mechanism, fixed height, side-rail-free designed beds. It is designed to respond to short and long term basic care needs and to be used for patients who needs caregiver supervision or patients with self-control ability. Suggested area of use : Home Care, Hospitals, Nursing Home

Supports Semi-fowler and Fowler positions. Back rest adjusted up to 0°-70° and knee rest 0°-35°. Semi-fowler position, 30° of back rest adjustment, can be used for those with heart, respiratory and neurological disorders or using a nasogastric catheter. It also meets the requirements of the Fowler position with 45 degrees of basic back rest angle and knee rest bending position support for providing comfort, relaxing breathing, post-thoracic surgery or patients with cardiovascular problems. As the back rest and knee rest can be adjusted seperately, It is ideal for activities such as long time sitting, reading book, using computer and eating food. We provide wide options to platform covering and castors for NPR 102 models.

Painting and Coating : Construction and frame surfaces are coated with epoxy powder paint at high degree ovens. Durability, resistance to scratching and smooth surface at high quality is under guarantee. Therefore, It keeps the look like the first day. Eco-friendly smooth surfaces help you take care of your beds at ease.

Construction (Body) : Made of steel construction. With gas metal arch welding technique, It provides strong and durable body.
